== CAYLEE ANTHONY — MISSING CHILD ==

It has come to the attention of The Baez Law Firm that bounty hunter Leonard Padilla is claiming the possibility of reinstating a bond he previously withdrew. Though Jose Baez and his client, Casey Anthony appreciated what Mr. Padilla initially did, his later unjustified retreat has clearly demonstrated that he cannot be trusted, and Mr. Baez, nor Ms. Anthony will work with Mr. Padilla on her case ever again. Mr. Padilla is simply milking media time under the pretense of re-posting a bond, which offer is rejected.

The Baez Law Firm is wholly supportive of Casey Anthony's parents retaining legal counsel of their own, however, that will have absolutely no bearing on Casey's court matters. Not only Ms. Anthony's rights were trampled, but so have the rights and property of her parents been violated, and the parents' attorney can attend to those issues without interfering with the important focus of finding Caylee and defending any charges against Casey.

The Baez Law Firm has been successful in its efforts to put a highly creditable and respected team of experts together, which announcement will be made at the appropriate time, and until then Mr. Baez will have NO COMMENT.

Press Corps Media has been retained by The Baez Law Firm to coordinate any and all media inquiries, allowing Mr. Baez and his staff to attend to the more vital matters of defending Ms. Anthony.

Casey Anthony is being bailed out of jail. The individual posting the bond prefers to remain anonymous, and is doing it because of the belief that Ms. Anthony's constitutional rights have been grossly violated. Mr. Baez will have NO COMMENT about the bond and will respect the privacy of the anonymous party.
